

Model::createFlow

```
graph LR; A[Model::createFlow] --> B[Model::add]
```

A diagram showing a call from the `Model::createFlow` function to the `Model::add` function. The `Model::createFlow` node is a white rectangle with a black border, and the `Model::add` node is a gray rectangle with a black border. A blue arrow points from the right side of the `Model::createFlow` node to the left side of the `Model::add` node.

Model::add
