

unit_Flow_constructorWith
Systems

```
graph LR; A[unit_Flow_constructorWith Systems] --> B[Flow::getSource]; A --> C[Flow::getTarget];
```

A diagram showing a unit constructor box on the left with two arrows pointing to method boxes on the right. The constructor box is labeled 'unit_Flow_constructorWith Systems'. The top method box is labeled 'Flow::getSource' and the bottom method box is labeled 'Flow::getTarget'.

Flow::getSource

Flow::getTarget
